University of the Punjab — 2021–2023

BA — History & Political Science

MEHREEN KHALID

Full Stack Developer

ABOUT ME

Full-stack developer based in Pakistan who turns ideas into things people can actually use — sites that load fast, look right on any screen, and don't fall apart the moment real users touch them. I take ownership of the details most people skip: clear component structure, code a teammate can pick up without asking questions, and interfaces that feel intuitive without needing an explanation.

PROJECTS

SafePay — Full Stack App

Checkout that handles failed payments and retries gracefully, not just the happy path.

Quick Khata — Invoicing App

Offline-first ledger for shopkeepers — works without internet, syncs when it's back.

FormCraft Pro — Full Stack App

Drag-and-drop form builder synced to a live database — every edit saves in real time.

Resume Builder — React App

Live preview meets instant PDF export — no page reloads, no lost formatting.
